

THE HALIBURTON COUNTY ECHO

AND MINDEN RECORDER

Vol. 96 No. 5

Wednesday, September 21, 1977

18 pages 20 cents

Ken Billings has been blind for a year and a half but during that time has received a great deal of assistance from the Canadian National Institute for the Blind. Mr. Billings shows his white cane while his wife

Eileen holds on to a machine which operates talking books. Looking on is Ron Curry, one of the campaign workers in this area. The CNIB is presently in the midst of its fund raising campaign.

Ken Billings is adjusting to life without his eyesight

Haliburton - Ken Billings lost his sight in a truck accident on the Harburn Road about a year and a half ago.

Since that time he has been visited by several Canadian National Institute for the Blind staff members, initially by Don Ferguson, District Administrator, from Peterborough, who is also blind.

Ken has a folding white cane, a braile watch, talking book service, and has had lessons in crafts from Ruth Herow, the rehabilitation teacher.

He has come a long way on the road of rehabilitation, and is a credit to himself.

Eileen, his wife, has been very helpful and deserves much of the credit for her husband's continued progress.

Ken was born in Haliburton in 1925 and after school worked in the logging and lumbering industry until 1964. That year he joined the staff of the municipality of Dysart et al as a grader and equipment operator.

Ken joined the armed forces in 1944 and has been a member of the Canadian

Legion for 26 years.

Ken is just one of others throughout Haliburton Co.

who receive encouragement and assistance through the CNIB.

The CNIB is presently in the midst of its local campaign.

More than changes to the leaves at Festacolor

Haliburton - Organizers of Haliburton's annual Fest-A-Color are hoping that the leaves will be somewhat changed in color for this year's event.

The annual event sees a few changes itself this year with the organization of the event switching from the Haliburton Rotary Club to the Haliburton Kinsmen Club.

Fest-A-Color '77 will be held this Saturday at the Dysart Community Centre.

Proceeds from the event will go to cystic fibrosis and community projects.

There will be a beer garden from noon to 5 p.m. and a

dance from 8 p.m. to 1:30 a.m. in the arena. The doors for the dance will open at 7 p.m.

Featured at the dance will be two bands to provide almost non-stop music. The bands are Kuff and Rivals.

There will be seating for over 500 people at the dance. During the afternoon there will be log sawing, a tug-of-war, ladies nail driving, slash tank and a number of other activities at the park at the community centre.

The Kinsmen suggest that it is a good opportunity for visitors and local people alike to get out and see the leave.

and some of the sites in Haliburton, including Harburn Wells.

Tickets will be available on the K-5 Blazer which the club will raffle off on October 8th.

Settlement close

Haliburton - Haliburton Highlands Secondary School teachers and the Board of Education are hopeful of a settlement of their contract dispute soon.

Last week the teachers

voted to reject a contract offered by the Board but the two sides have been negotiating since that time. The first vote taken on the proposed contract, two weeks ago, ended in a tie.

Lowering lakes is no longer acceptable

Haliburton - The lowering of the lakes in Haliburton and northern Victoria is "no longer acceptable" according to Dysart et al Reeve, Murray Fearrey.

Reeve Fearrey, in his opening remarks to about 100 people at the Haliburton Legion, last Sunday morning, said that they were there to discuss "the grave concern"

about the drawdown of the water from the reservoir lakes.

"It has come to the point where it is no longer acceptable," he said.

In his opening remarks Reeve Fearrey said that the lower water levels in the lakes in the area have caused a shortage of water in wells,

pointing out that an unprecedented number of wells have been drilled this year.

He said that cottagers have had trouble getting their boats in and out of the water because their docks are 30 to 40 feet from the water.

Reeve Fearrey suggested that marina operators have lost money this year because

people have not been able to get up to the marina's docks.

He pointed out that it has caused a problem with waters that are not navigable and that a number of motor boat operators have lost propellers or had their motors damaged on rocks and logs.

He suggested that possibly the low water has caused problems with erosion along some shorelines and could be hurting the spawning beds of a number of species of fish.

Reeve Fearrey also told the people in attendance that the low water this year has also hurt the real estate business which he pointed out is an important part of the economy of the area.

Trent-Severn employees answer questions on the levels of lakes

Haliburton - Employees of the Trent-Severn System were on hand at Sunday's meeting at the Haliburton Legion to answer questions concerning low water in the reservoir lakes.

Bruce Kitchen, of the system, answered a number of questions from Murray Balkwill, the secretary of the meeting, and then answered a number of questions from the floor.

Mr. Kitchen, in answer to a question about when the operating guidelines were set out for the Trent Canal said that the 'reservoir lakes have been used by the federal government since 1906 when the federal government took over the Trent System.

He pointed out that the policy of taking water off the

lakes has changed over the years. Originally the water was taken from the lakes further north first and then from the lakes at the southern end of the reservoir system, but because of the large number of residents on all of the lakes the water is taken off evenly, Mr. Kitchen explained.

Mr. Kitchen said that the levels in the Trent System have never changed but the flow from the reservoir lakes is now lower.

When asked what else the water is used for other than the canal, Mr. Kitchen said that it is used for municipal water supplies in Peterborough, Campbellford and most small towns along the system.

When it was pointed out to Mr. Kitchen that the boat

traffic in the Trent System is now very low and perhaps the levels didn't have to be kept so high, Mr. Kitchen noted that the levels have to be maintained regardless of the number of boats going through the system.

Mr. Kitchen was asked if the canal could be operated with less water and he said that it is felt the canal is operating at its minimum level now.

Len Begg, an employee of the system, suggested that if the people had a better way of running the Trent Canal than the government would listen to it.

Don Halls, a landowner on a reservoir lake, answered that it is up to the experts to come up with the answers, not the people of the area.

Scott and Eakins speak at water levels meeting

Haliburton - Bill Scott, MP for Victoria-Haliburton, told about 100 people at the Haliburton Legion, on Sunday morning, that he has lived with the water level problem all of his life.

MP Scott was among a number of speakers at a public meeting held last week to discuss the water level problems in the reservoir lakes.

Member of provincial parliament, John Eakins, was also on hand at the meeting.

Mr. Scott said that he would like to see more input from the local people involved in the Trent-Severn Water-

way. "We have to get closer to the action," he said.

He pointed out that he does not blame the local operators of the system but instead the problem comes from the "higher echelon."

"We have to bring it across to the powers that be," he said.

Mr. Scott, commenting on the computer used to decide how much water is needed for the Trent System, said that he believes we are over-computerized.

Mr. Eakins said that perhaps he could find some of the answers in the provincial field and pointed out that he will

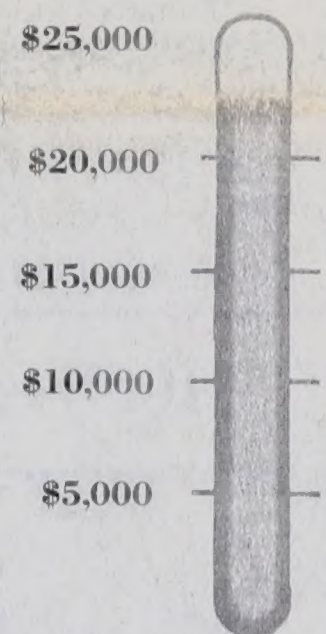

co-operate with Mr. Scott in solving the water level problem.

Mr. Eakins suggested that a meeting be arranged with the Canada Ontario Rideau-Trent Systems (CORTS).

He pointed out "If we don't have the good clean water we will suffer tourism wise in Haliburton."

"I will support you in any way I possibly can," he said, to the people at the meeting.

Haliburton County Warden Robert Vick, offered his thanks to the people who turned out at the meeting and noted that he feels a lot of good points were brought out.

Recent donations to the Dysart Arena Fund have raised the total to \$22,184. The objective of the fund is \$25,000.

Donating in the past week were Edwin Reemer \$10, Ron Tyler \$100, John Slater \$15, Ed Youngdale \$200, Dr. C.L. Bates \$50, H.R. Cummings \$50, Eric Bain \$10, V.W. Taran \$10, Ed Neuser \$25, Kawartha Dairy Ltd. \$100, HHSES \$100.

Donations may be sent to Box 382, Haliburton.

County Warden, Bob Vick, Member of Provincial Parliament for Victoria-Haliburton, John Eakins, and Member of Parliament for the riding, Bill Scott, listen intently as residents and cottagers of the area explain

some of the problems they have encountered this year with water levels being low. About 100 people were on hand at a meeting Sunday morning at the Haliburton Legion to discuss the problem.

Introducing the liquid-cooled Futura 444.

It's new this year, and there's never been anything like it in the Moto-Ski line. The quiet, liquid-cooled power of the 444L/C, plus all the comfort and convenience extras a snowmobiler could dream of. Futura also comes in conventional fan-cooled 400 and 440 models. Electric starter available, factory installed. Drop in and check them out today.

Ask about the new Moto-Ski 2-season warranty program.

Make friends with your Moto-Ski man.

AMC 1978... QUALITY, VALUE AND SIZE FOR CANADIANS

The 1978 AMC cars are designed to meet today's need for smaller, lighter, more efficient vehicles, interior room, comfort, ride and performance. They are efficiently sized without sacrificing power. Short overall length makes them agile and easy to maneuver. The design provides a spacious interior. Strength, weight and width contribute to stability and 'big car' riding comfort.

For 1978, there are thirteen models in five distinctive AMC lines. All of these AMC cars offer an excellent blend of small car efficiency, handling and maneuverability.

There is the new luxury compact... Concord. The unique, wide body Pacer with a fresh new look. The sporty but roomy Gremlin. The exciting AMX. And the smartly appointed Matador.

A wide selection of Hatchbacks, Wagons, 2-door and 4-door models are included in the 1978 model line-up. A broad choice of optional trim packages also are provided for added style and sportiness.

Luxury, performance, comfort and room has been built into all 1978 AMC passenger cars. They are designed and appointed, and priced to be good value for the money.

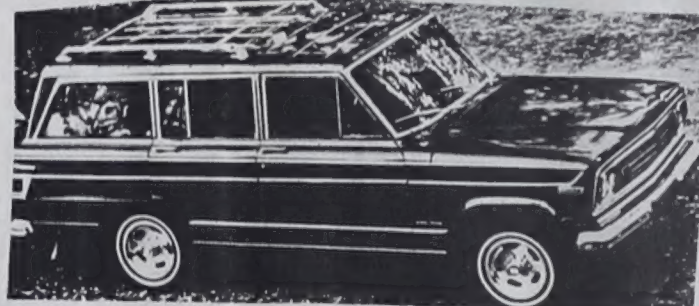

AMC '78. Quality, value and size for Canadians.

Eakins is disturbed by treatment given to Niagara Falls alderman

John Eakins, MPP for Victoria-Haliburton, the Liberal party critic of the Ministry of Industry and Tourism, was disturbed upon hearing today of the two aldermen who, on returning to Niagara Falls, were reportedly treated in a very arrogant fashion by Canadian customs officials there.

"I do not feel that this helps our efforts to bring tourists to Ontario at a time

when the tourism industry has had its share of problems. Rather we should be making our visitors' first impression of Ontario a very warm and welcome one.

"This is one area where the provincial govt. should be working in conjunction with the federal government to ensure that a very favorable welcome is extended to our tourists from the first moment they enter Canada until their holiday here has ended.

"Good public relations is one area where everyone can take part and leadership from the Provincial Ministry of Industry & Tourism in a case such as this is certainly in order."

Betty Evans Evangelist visiting in Wilberforce

Wilberforce - Betty Evans of the Meryle Dolan Evangelistic Association has visited the eastern part of our county several times in preparation for a Crusade in late October.

Miss Evans, a former elementary school teacher, from Stayner, Ontario, was converted in one of Meryle Dolan's crusades in 1965. Since that time she has been an active member of the First Baptist Church in Stayner, where she has held such positions as choir member, Sunday School teacher and president of the young peoples.

She joined the Meryle Dolan Evangelistic Association in January of 1973, where she received the position of executive associate and secretary-treasurer. She meets with crusade committees in preparation for crusades, looks after the financial end of the Association along with the correspondence. During the crusade, she works behind the scenes to make sure everything runs smoothly.

It has been confirmed that these special meetings will be held in the Harcourt Community Chapel and in the Lloyd Watson Memorial Centre in Wilberforce.

Watch for further details which will be released soon.

TOWNSHIP OF SNOWDON Applications

Applications are invited for the position of Road Superintendent's helper for the winter months. Applicants must be licensed to drive the township truck and be capable of acting as wingman.

Applications will be received at the township office until 4:00 p.m., September 29th, 1977. Successful applicant to commence his duties on October 12th, 1977.

Geoffrey Wynne
Clerk-Treasurer.

Haliburton Legion News and notes

On Thursday, September 1, the regular general meeting was held in the Legion Hall with President Mel Robertson in the chair. The minutes of the various summer meetings were read by Secretary, Sylvia Sisson, and the Carnival report was presented. The Building Committee chairman, Comrade Cliff Dawson, gave a report on the progress made by his committee during the summer and a meeting has been called for Wednesday, September 7, at which time the tenders will be opened.

It appears likely that the work on the extension will begin next spring. We were reminded by Comrade Don Johnston that August, 1978 will be the Golden Anniversary of Branch 129 and all members have been asked to start thinking of this milestone and start planning now for a suitable celebration. Once again the Literary Contest is underway and the Public Speaking is upcoming for the new year. The response from all the schools in the area has been somewhat less than enthusiastic in the past but we are hoping for better things this year.

The Legion is sponsoring another Haliburton first this fall when the First Annual Fiddling and Step Dancing contest is held on October 7. This is being well advertised in the paper, so, Comrades, make a date to be there. These contests are becoming increasingly popular in the province and Comrade Harold Bannon thinks October is an ideal time for Haliburton as most other centres are finished and we have the added attraction of the fall colors.

One week later, on Friday, October 14, Branch 129 is hosting a dinner for its Associate, Fraternal and Honorary members. We will require waiters and kitchen help and there will be space on the board for the names of those whose talents lie in that direction.

Remembrance Day is less than two months away and a great deal of help is required each year to ensure a successful Poppy Fund Drive. Please offer your services, comrades. Each year takes us a little farther from the memories, therefore making our task a little bit harder. Plans are already underway for the annual service at the Cenotaph and the dinner. Plan to attend both.

Comrade Don Johnston reports that the Pipe and Drum Band had a very busy summer, attending Drumhead Services and Fairs. One highlight of the summer was our trip to the C.N.E. Warriors Day, August 21. The band was accompanied by a color party and a number of veterans who boarded a bus at 6:30 a.m. and picked up more Legionnaires at Kinmount and Lindsay.

See page 10

100 people express views on the water levels of local lakes

Haliburton - About 100 land owners from the Haliburton area attended a public meeting last week at the Haliburton Legion Hall to discuss the problems of low water in the lakes and rivers this year.

Bruce Kent of Eagle Lake said that he is frightened by the prospects of the waterway system taking off two more feet of water in January.

Mr. Kent said he, along with a number of people in the Eagle Lake area, use their cottages all year and during the past two winters he has run out of water.

"If they take another two feet we won't be able to come up here at all," he said.

Jerry Strickland, president of the Lake Muskawabi Association pointed out that in Long Lake one of the basins is presently down to 10 per cent and another is at 20 per cent of normal depth.

Donald Kevin, of Horseshoe Lake on the Gull River, said that one business lost 40

per cent of its usual trade because boats couldn't get from Mountain Lake to Horseshoe Lake.

One person from Shadow Lake suggested that perhaps the government should tell the land owners in this area where the problems are.

Ron Curry of Haliburton said that the lower lake levels is a serious and difficult problem that can only be solved with new reservoirs.

He pointed out that there is a large area in northern Peterborough County that could be added on the reservoir system.

A number of other land owners pointed out their specific problems in their areas and the group passed a resolution proposed by Don Fisher of Boshkung Lake.

Mr. Fisher's resolution said that the people of the reservoir lakes and the Trent-Severn System should start sharing the water. The resolution was passed unanimously.

People mislead Nesbitt charges

Haliburton - Sinclair Nesbitt, the Reeve of Stanhope Township, told about 100 people Sunday that the Trent-Severn System representatives are misleading the people when they say the reservoir lakes were 80 to 90 per cent of normal depth in the spring.

Mr. Nesbitt said he saw cases where logs were in the dams but there was no water.

Mr. Nesbitt suggested that perhaps now is the time to look at changes in the operation of the Trent Canal and the reservoir lakes. "If we looked at things as they were 30 years ago we would still be loading gravel with a round nosed shovel," he said.

Mr. Nesbitt was speaking at the public meeting held at the Haliburton Legion to discuss water levels in the reservoir lakes which take in a number of lakes in the Haliburton County area.

Bruce Kitchen, of the Trent System, answered Mr. Nesbitt by saying that there was 89 per cent levels in the lakes but some were lower than that and some were higher.

Dysart et al Reeve, Murray Fearney, suggested to Mr. Kitchen that he would like to see the lakes that were higher in the spring.

Mr. Fearney said, "We've had lip service for 15 years on the water levels and it isn't enough." He suggested that a committee be set up to look into the problem.

A committee of 12 members has been appointed.

Anson, Hindon and Minden Reeve, Reg Booth, said he has been associated with the water level problem for 30 years. He said that 30 years ago he was told that Peterborough came first and Haliburton did not matter.

Report from Ottawa

BY MP BILL SCOTT

Statistics Canada reported last week that unemployment in Canada has reached the alarming rate of 8.2 per cent of the work force. This prompted Joe Clark, Conservative Leader, to demand that the government accept

the proposals put forth by our party to stimulate the national economy and get people back to work.

Several months ago Finance Minister, Donald MacDonald said that the Canadian economy would improve

just as soon as there was an upsurge in the U.S. economy. Since then the U.S. economy has shown a marked improvement, while the Canadian economy continues in its downward spiral.

The unemployment rate in the U.S. is consistently lower than in Canada, in the 6.9 to 7.0 per cent bracket, while our own unemployment rate in Canada over the past few months has risen steadily, from a low of 7.5 per cent to the present 8.2 per cent.

It is obvious that the government has been waiting for the U.S. to influence our economy, and our jobless

rate, but as I mentioned in this column more than a year ago, we have got to solve our own economic problems and not leave it to someone outside the country.

We in the Conservative Opposition have pointed out over and over again that the true unemployment rate in Canada is nearer to 11 or 12 per cent than the figures published by Statistics Canada.

Those thousands of people who have given up trying to find jobs in the Manpower offices, and have stopped registering in those offices,

See page 6

12 students received dental injuries last year

According to figures compiled by the Haliburton, Kawartha, Pine Ridge District Health Unit, 12 students in the Haliburton County Board of Education received dental injuries during the school year 1976 to 1977.

These figures compare to 15 in 1975 to 1976, and 18 in 1974 to 1975.

Dental treatment costs as a result of these injuries last year were \$2,239 compared to \$2,215 in the previous year and \$4,508 in 1974 to 1975.

The total number of teeth injured last year was 18. That compares to 18 the previous

and 28 in 1974-75.

Last year 50 per cent of the sports dental injuries occurred at school while 25 per cent occurred at home. The remaining 25 per cent occurred in other organized league activities.

In 1975-76, 17 per cent of the dental injuries occurred at school, 17 per cent at home, and 66 per cent in other league activities.

In 1974-75 43 per cent of the injuries took place at school and 57 per cent took place in other league activities.

There were three dental injuries in hockey last season compared to seven in 1975-76 and seven in 1974-75.

There were three injuries in each of the three years in baseball.

In 1976-77 there were three soccer injuries. There were none injured in 1975-76 and three in 1974-75.

The Health Unit recorded three dental injuries in football in 1976-77 and none the previous two years.

In their annual September promotion of mouth protection in contact sports, Health Unit Dental Services staff will again bring a Mouthguard Clinic to Haliburton Highland Secondary School. This will be on Tuesday, September 20th, at 10 a.m.

Students 13 years of age and over, both boys and girls, can be fitted with a custom-made mouthguard at a cost of \$4.00.

Estimations based on the School Accident Insurance Company's claims experience show that the Mouthguard Protection, initiated in 1972, is having a positive influence in preventing dental sports injuries in Haliburton County.

These estimations also indicate that hockey is again the leading cause of dental injury however, baseball and soccer have also been major causes

of dental injury and should receive more recognition as sports requiring mouth protection.

These estimations also identify another concern - while overall dental sports injuries are reduced 20 per cent from the previous school year, there are an increasing number of injuries taking place at home and at school.

In view of these facts and the service available, sports-minded students of eligible age are encouraged to turn out for the Mouthguard Clinic on September 20th.

103 general occurrences

Minden - Members of the Minden detachment of the Ontario Provincial Police investigated 10 motor vehicle collisions between Sept. 12 and 18.

There were 103 general occurrences during the week.

The detachment has investigated eight break-ins, delivered two compassionate messages, charged three persons which boating violations, two persons with liquor violations and two persons with impaired driving.

Charged is Paul Wayne Howe, 25, of Haliburton.

Haliburton man faces a number of charges following incidents Thursday

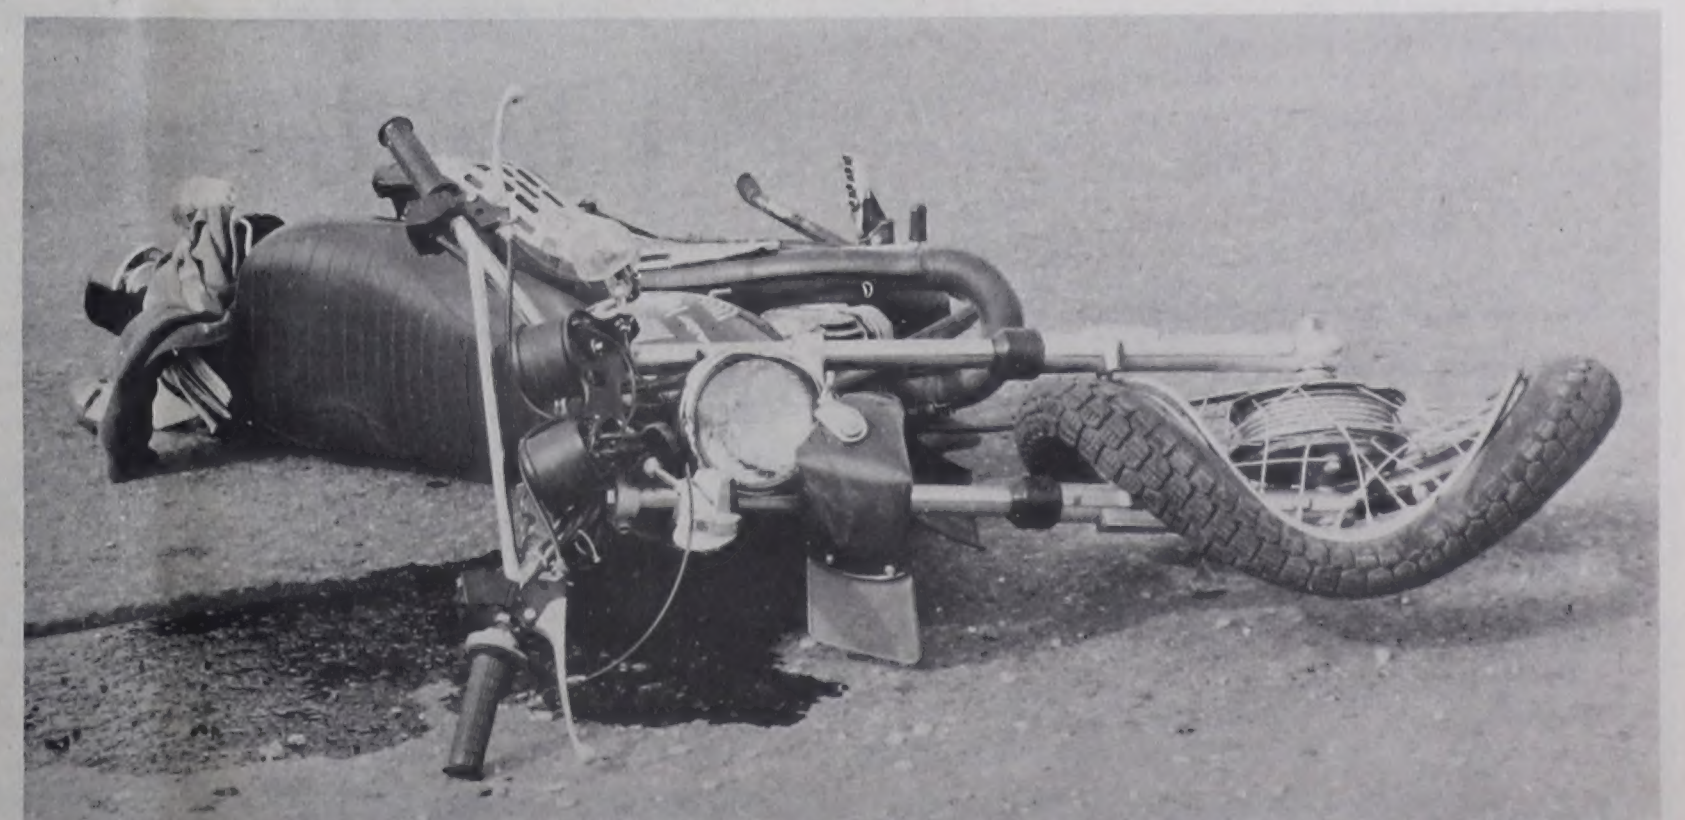

where according to the police report a shot gun was produced.

The report went on to say that the person's car was towed to Curry Motors in

Haliburton Village but at 7 a.m. in the morning, when the garage opened, the car

was gone. The police apprehended a person at about 4 p.m. that

day in Minden. Charged is Paul Wayne Howe, 25, of Haliburton.

This motorcycle received \$500 damage when it was involved in an accident at the corner of Highways 121 and 519 in Haliburton Village. The motorcycle collided with a car driven by Orman Rowbotham.

Driver of the motorcycle was Lavern Hobden. Both drivers are from Haliburton. The accident took place on Sept. 15.

Cocaine stolen very dangerous

Haliburton - A quantity of pure cocaine was among a number of drugs stolen in a break-in at Cauldron Pharmacy in Haliburton.

The break-in took place September 17, between 3 a.m. and 9 a.m.

The Minden detachment of the Ontario Provincial Police report that the cocaine could be fatal if abused.

The police report that the thieves gained entry to the building by breaking the glass window on the side door.

There was \$20 damage to the door and a total of \$245 in cash and drugs was taken.

3 per cent loss in water storage

A 3 per cent loss in storage over the last week has left the Northern Reservoirs at 42 per cent of available storage on September 12th, or slightly above the long term average for that date.

Outflows from all the reservoirs are being held to minimum values, as are flows down the Otonabee River.

A canal construction crew has started working on Contau Lake Dam, which is one of 43 Reservoir Lake Dams. The work is expected to take

approximately a month. Traffic on the Waterway for the season, up to and including August 14th, stood at 139,425 boats. This is a 3,000 boat increase over the same period last year.

It is interesting to note that these boats required 77,380 lockages, which is 1,271 lockages less than last year at that time. This means that the lockstations have been averaging more boats per lockage this year.

Echo editorials

Water levels up to civil servants

The problem of water levels in the Haliburton, northern Victoria and Peterborough Counties is as old as the Trent Canal, or so it seems by some of the comments at a public meeting held at the Haliburton Legion to discuss the matter.

We (the people of Canada) rely on our governments to do as much justice for the people as possible.

In order to do the work necessary a large civil service has been hired.

The members of the civil service serve a very important part of our government. In most cases they are the experts. They are the people who are supposed to provide the answers to the satisfaction of the politicians and mostly the general public.

They get paid (and for some quite well) to come up with the answers. They also get paid to come up with the ideas. The civil service (not all of them but a growing number of them) seem to be happy with maintaining the "status quo" especially if change means a little more work for them.

Being a civil servant, working for government, means that you have the opportunity for a good steady job, decent pay, and most of all the chance to be involved in politics, without having to seek re-election.

The civil service has the politicians in a squeeze. How many members of the government are experts on the water levels in the Trent Canal?

Many times over we have wondered just who is in charge? Is the civil service acting as it should and advising the elected officials by presenting both sides of the story, or is the civil service, in some cases at least, giving just part of the story to the politicians?

Sewer delay has cost a great deal of money

What is the latest news on Haliburton Village's sewers, hopefully before The Haliburton County Echo and Minden Recorder gets out the latest news will be that the contract has been awarded.

Somewhere, for the past couple of weeks, somebody has been waiting to award the contract, which would get the sewer project underway.

How come the only people that seem to realize the time it takes to award the contract are the ones up here in Haliburton?

What is happening at Queen's Park? Can they not see that a late start on the construction first of all will not help the economy of this area this winter? Do they not realize that they are likely costing the contractor money, because he could be sitting waiting? Do they not realize that they are taking dollars right out of the working mans pocket?

I keep hearing that all levels of government are concerned and working on solving the unemployment problem. Well one level of the provincial government may be doing that but certainly, if there are any other delays like the Haliburton Village sewers, other levels are not.

Perhaps in major centres, like Toronto, a project the size of the sewers in Haliburton seems to be pretty small apples. But in Haliburton it is the biggest thing to happen in many years, perhaps one of the biggest things ever.

Another loser in the sewer delay are the people on septic systems who have been waiting for some time to have their systems replaced.

We will be getting sewers in Haliburton Village and someday this couple of week delay will be forgotten by most people but this little delay has cost some money.

Spectators win at Huskies games

The Haliburton Huskies are presently making plans for the coming season in the Central Ontario Junior D League.

The club last year provided a great deal of excitement at the Dysart Community Centre, but judging by the size of the crowds, not many people in town knew about it.

This year Haliburton could mount a threat to win the championship of the Central Ontario League. The team with a number of players returning, plus the fact that perennial champions Wellington has left the division, could become one of the top two or three clubs in the league.

The Haliburton Travelways Huskies play an exciting brand of hockey but deserve much more support from the fans. The thrill of junior hockey can be found at the Dysart Arena this winter.

Feir Play

by Creighton Feir

This coming Saturday is Fest-A-Color '77 to be held at the Dysart Community Centre at Haliburton. It is being sponsored by the Kinsmen Club of Haliburton with proceeds going to Cystic Fibrosis and community projects. There will be plenty to do and see at this years Fest-A-Color with plenty of trophies to be awarded. You can prove how hardy you are with lots of contests to test your strength and skill. Log sawing contest (cross-cut only), nail driving contest (this is for you ladies). There will also be a splash tank, tug-of-war, and a food booth inside the arena. You can dance to the music of the two hottest groups in the area, "Kkuff" and "Rivels", both playing country rock. The beer garden opens from 12 noon to 5:00 p.m. with no admission charge. This weekend why not come to Haliburton and besides attending Fest-A-Color you will have the opportunity to see the colored leaves in all their autumn glory and the Kinsmen Club remind you to see the spectacular Harburn Wells while you are here. It's Fest-A-Color '77 this coming Saturday, September 24th. Don't miss it.

In looking over a map of Haliburton County the other day we noticed that there is hardly any crown land in the municipality of Dysart et al. In most of the other municipalities there seems to be plenty of crown land. The question is whether or not this crown land will ever be sold? If it's going to be used for recreation purposes we should know about it. It would also seem that the municipalities with all the crown land have the highest taxes.

Now that the sewers are in at Minden, the repaving of the roads in the Village of Minden look pretty good. The road that leads off the by-pass into Minden is being paved and this is sure going to be a big improvement.

We wonder how many hockey fans realize that the Wednesday night N.H.L. hockey games will not be carried on Channel 9 this winter. CHCH, Hamilton, Channel 11, have bought the contract to televise these games. This is very unfortunate that we cannot get Channel 11 here. Channel 11 has some great programs and movies and now they have the Wednesday night hockey games.

An accident occurred at the intersection of Highland Street in Haliburton last Thursday afternoon which drew a great number of spectators to the scene. It was quite amusing to see the crowd all waiting around, looking at their watches to see how long it was going to take a police cruiser to arrive on the scene. Most of the citizens of Haliburton think that we should have our own police detachment stationed here and are always on the lookout to see just how good the police protection is that we are getting. There seems to be many conflicting reports on when the call was first phoned in and when the police arrived.

In every centre in Haliburton County there are a group of citizens who reside in a community and one would hardly know that they live here if we didn't happen to notice their names on the voters list. They could even move away and no one would miss them. The people we are talking about are the few who sit back and take no part in community affairs. They don't belong to any organization, they give to nothing, they attend very few events in the community and in other words, they are a lost cause. These same people who put nothing back into the community are usually the first to kick about anything that may be done. The so called citizens we are talking about are the first to complain about the council or any organization which is out for the betterment of their community in which they live. These people are against progress in any form and they will knock it at every opportunity. They must be ignored if we are to get ahead.

We learned recently that George Edward Jones, 70, of Linsmore Cres., in East York, former director of field services in East Toronto, for the Boy Scouts of Canada, passed away after a two month illness. About 25 years ago, after serving as district commissioner for the Scouts, he joined the staff and managed camps in Haliburton where about 1,600

Scouts trained each year. He was field service director for 10 years before retiring five years ago.

While investigators continue to sift through the debris and search for the cause of the fatal plane crash toppling its towers, CKVR officials have already made arrangements for the erection of a temporary 400 foot tower. The tower is being loaned by the CBC.

For some people in the county, Barrie is the only station that they can pick up and as you can see, for the past week or two they have been without television.

It would appear to us that the Highlands of Haliburton never receive the publicity and news coverage which they so rightly deserve. We always seem to be the forgotten country. How many times on radio and TV do you hear about Muskoka and other tourist areas, but seldom a mention of the Haliburton Highlands. For instance, if you looked at the Toronto Star, published on Saturday, they had a full page on the front of the travel section under the heading "A Season of Glory." Muskoka received 14 inches of lineage while the Highlands of Haliburton received 3 inches. It's just about time we received a break.

A birthday party was held recently for Mrs. Annie Miscio at her home at Minden. Those attending were Mr. & Mrs. Ron Lawson, Miss Debbie Lawson, and Mrs. Jamburane of Toronto, Mr. & Mrs. Frank Davis, Mr. & Mrs. John McLaughlin and Mr. & Mrs. Glen Stata, all of Lindsay. Mrs. Miscio also received a telegram from Prime Minister Trudeau on the occasion of her birthday.

Many of our older residents will remember Rev. Stringer who came from England to Canada in 1908. Rev. Stringer was the minister who helped to build St. Andrews Church at West Guilford. He later came to St. George's Church at Haliburton and when the church burned down he, along with many others, helped to rebuild it. Our thanks to Allan Sisson of R.R. 1, Haliburton for submitting this photo.

Editor's Notebook

by Jim Badgley

Fund raising campaigns are gearing down in Haliburton since the end of August. The Arena Fund is reaching its objective and the Monmouth Arena campaign is moving along.

Some of the service clubs campaigns, such as the raffling off of trucks are over as well. One of them isn't though. The Haliburton Kinsmen will tell you that there are still plenty of tickets left on their Blazer, which will be drawn for on October 8.

The Monmouth Arena people will also tell you that there are plenty of opportunities to buy tickets on the lake front lot that they are raffling off.

The delay in the sewer project in Haliburton has likely hurt another project for the village.

Before the approval came through for the sewers to be done in 1977, approval had been given to put in the curbs and gutters along the entrances to the village.

Well that project had to be put off because of the sewer construction which everyone expected to take place in 1977.

Now the bulk of the sewer construction will be done in 1978 which I would suspect means that the improvements to the entrances to Haliburton Village will be delayed for another year.

A couple of weeks ago Dysart et al council received a letter asking if there was anything to see in Haliburton. Well it was laughed off as a little bit of a joke, but how much of a joke is it. Perhaps we should be looking around for more attractions other than the natural beauty of the area.

With the new park going in (hopefully) between the railway tracks and Rotary Beach, perhaps some sort of amusement set up should be considered for the youngsters.

As others see it

Reader sees Red in The Echo

Dear Mr. Editor:

I received my copy of the Echo today and read your editorial entitled "Traffic a problem of Kinnmount Fair." I saw RED!

Thank you for letting us know "quote" - "It put a damper on activities." We hadn't noticed. Now, what's your problem.

Your paper has coaxed people into coming to the area for years and when there is an event that does just that you knock it because of the traffic jam.

I will concede that perhaps some of the traffic was "through traffic," and, as such, they were no doubt inconvenient. For this I apologize. On the other hand, I would assume a far greater percentage of the cars were fair bound or they would have taken an alternate route to your territory. After all, it does happen every year.

Just what constructive help can you give us down here in "North Victoria?" A four lane highway? Prohibit parades on Highway 121, Haliburton included? A charter bus service?

Perhaps if we chose the latter you could personally avail yourself of the service to attend the event and cover the news "live." Your local opposition did and followed it up the week following with a centre spread. Quite effective.

I question where you acquired your information for said editorial. Perhaps it was from your release of the event in last weeks paper. I hadn't noticed any "complaints of traffic" in that one.

Carol Baker and her husband were among the first cars to enter the grounds following the parade. Her band was somewhat detained but she was not.

As for the OPP being tied up - I would imagine those five particular officers had been assigned to the fair for the day. Heaven forbid that the rest of their area had been neglected because of the fair, as you imply.

We are a small town, very proud of our one big event of the year. It represents many long hours of hard work for a few. You, no doubt, have many readers who have spent a good many enjoyable hours there over the years. I trust that you speak for the minority of your subscribers.

If you can help us to "sensibly," as you say, overcome our problem, short of telling people to stay home; then speak up! We are open to all suggestions.

Yours truly,

June Phillips

Nutritional understanding

For the past couple of weeks, this newspaper has carried editorials concerning proper nutrition and the surprising fact that in this enlightened age, right here in the richest farming country in the world, people are just not getting the necessary nutrients to keep them healthy and fit. Whether Goderich and area people want to admit it or not, there are many people in Huron County who could benefit from improved nutritional understanding.

National Health and Welfare Minister, Marc Lalonde, and Consumer and Corporate Affairs Minister, Tony Abbot, have released some findings which should startle a good many Canadians. For the most part, parents believe they are doing their children a favour by providing them with breakfast cereals instead of some other foods. The report shows that certain foods are easily recognized as containing mostly sugar, such as candies and soft drinks, and that many people may not be aware of the large amount of sugar in some manufactured foods, such as certain breakfast cereals.

Seventy-four cereals were analyzed and the results indicated that sugar represented up to approximately 56 per cent of the weight of some cereals. Increased numbers of citizens, from childhood right through to old age, are suffering from an unusually high rate of tooth decay and obesity. Much of the problem could be eliminated if people were made more aware that foods that are mostly sugar are likely to be low in vitamins, minerals and protein. The intake of such foods should be limited for the average person and eliminated for some others.

Those cereals which are most nutritious and which contain less than five per cent of their weight in sugar are cereals like puffed rice, puffed wheat, regular oatmeal and cream of wheat and Red River cereal and shredded wheat. Those cereals having more than 4.9 per cent and less than 10 per cent of their weight in sugar are corn flakes and bran flakes and rice krispies.

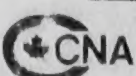

Cereals like granola and those instant pre-sweetened hot cereals have from 15 to 30 per cent sugar. Sugar-coated cereals have, of course, a much higher sugar count, and some of them, like sugar pops and apple jacks are just about half sugar.

Still the best buys nutritionally are those plain old cereals, especially natural oat and wheat cereals that you cook at home. They should be sparingly sweetened with honey or brown sugar. What's more, a housewife can feed a family of four breakfast for a whole week for a fraction of the cost of some other cereals.

Good nutrition doesn't cost more money. But poor nutritional habits cost a bundle in loss of health and well-being.

Dear Abby

By Abigail Van Buren
1977 by The Chicago Tribune-N.Y. News Synd. Inc.

DEAR ABBY: My wife and I fixed up our backyard with a slide, swings and a sandbox for our grandchildren to enjoy when they visit us on weekends.

The neighbors' children (and there are many) asked if they could play in our backyard during the week, and we saw no reason to refuse them.

Well, last week a neighbor girl fell off our swing and broke her nose and two front teeth! (They were not baby teeth, so they have to be replaced.)

The girl's father informed us, through his lawyer, that we are liable for the doctor and the dental bills.

Our own lawyer said we had to pay it because it happened in our yard. Abby, we're just average middle-class people, and this has hit us hard.

I hope you'll print this as a warning to other naive, big-hearted people who can ill afford such generosity.

STUCK

DEAR STUCK: Will do. But if you had spent just a few dollars for insurance, you would have been "covered"—not stuck! Readers, talk to your insurance agent, and be sure YOU'RE protected.

DEAR ABBY: I have a European man friend who lives abroad but comes here very often on business for his government.

We are very close physically and emotionally, have even spoken of marriage and have exchanged "I love you" many times.

The only thing I don't like about him is that he's cheap. Last Christmas he sent me a seashell and a T-shirt. The seashell was beautiful—if you like seashells. And the T-shirt was obviously secondhand. I have nothing against secondhand clothes, but I don't think they are appropriate for a gift.

I didn't mention it for several months, but it kept bugging me, so I finally wrote him and got it off my chest! Well, I haven't heard from him since.

All his letters up until then were lovey-dovey. Do you think I made a mistake telling him I thought he was cheap? I'm sorry now. Should I write him again and apologize? I miss him, and I do love him.

GIRLFRIEND

DEAR GIRLFRIEND: A secondhand T-shirt is a firsthand indication of his chintziness. However, it's the thought, not the value of the gift, that counts. You were right to level with him, but if you love him and miss him, write and tell him so. And if you get him back, I hope you realize you'll have a man who's cheap.

DEAR ABBY: What do you think of a 20-year-old college girl who had to be bribed, coaxed and begged to help her mother clear the table, dry the dishes, make her own bed, hang up her own clothes and do her own ironing?

When she's away at college, she lives at the dorm and ships her laundry home for her mother to do and ship back. She has never tried to get a summer job to help pay for her college expenses. Instead she goes out every night and sleeps until noon. Ever since she was a young girl, she has expected me to be her slave. Why?

HER MOTHER

DEAR MOTHER: Because somewhere along the line she was given the impression that she could get away with it. And apparently she was right.

Minden Women's Institute meeting

The Minden Women's Institute held their September meeting at the Orange Hall on the 14th of the month.

The President Mrs. Lyman welcomed the members and visitors and read a poem telling what the names meant.

During the business it was decided that the bus trip on October 5th would be to the Science Centre in Toronto and they would leave at 8 a.m. Also, that would give anyone who wanted to shop time to do so.

The East Victoria District Tea is to be held in Cameron on October 19th and as Minden Branch have been asked to help in several events the October meeting was moved ahead to the 12th of October, but other than the date being changed all else is the same and the meeting is at the Orange Hall at 2 p.m. Roll call, exchange of plants and slips.

Several ladies donated tea towels for use at the meetings.

Cards of farewell and good wishes were to be sent to Mrs. S. Kinnear and Mrs. McClintock who are leaving our area and have been W.I. members while here.

Plans were made to serve tea at Hyland Crest, October 13th.

Mrs. Jean Taylor reported that she had sent 61 cards since the June meeting.

Mrs. John Hulbig gave a paper on "Days in the 30's in the West." Those were days that were remembered by many as being the same all over.

A poem was read by Jeanne Sears, then the meeting closed in the usual manner and a delicious lunch was served by the committee.

The W.I. welcomes all interested ladies to attend the meetings and hopes to see more at the October meeting.

Echoes of the Past

September, 1974:

The big weekend has finally arrived and people from all parts of Ontario will be heading to Haliburton County this Friday, Saturday and Sunday for what we expect will be a time that will long be remembered. There will be plenty of action and entertainment to suit everyone's taste as there will be big goings on at three places in the county, namely Wilberforce, Haliburton and the Stanhope Airport at Maple Lake.

In Haliburton the Rotary Club is going all out to bring you Festacolor and is inviting you to come and see Haliburton Village in living color on Sept. 28.

September, 1973:

Former Minden Progress publisher, Al Greir, has signed a one-year contract to coach the Victoria Maple Leafs Junior A entry in the Pacific Coast International Hockey League.

The induction service for Rev. Don Nicholson, minister of the Haliburton Pastoral Charge, serving Haliburton, Lochlin and Ingoldsby, was held on Wednesday, Sept. 5, at eight p.m., in the Haliburton United Church.

September, 1970:

Attendance at the annual Kinmount Fair last Saturday was estimated at over 10,000 and some thousands of people also attended the Sunday events. Saturday evening over 1,100 people attended a dance at the fair with music by the Carlton Show Band of TV's Pig and Whistle fame.

Home insulation program announced

Bill Scott, MP Victoria-Haliburton, learned recently that the Canadian Home Insulation Program has finally gotten under way under the auspices of the Hon. Andre Ouellet, Minister of Urban Affairs.

Although this program was announced early in the summer, as late as August 31st no information was available despite the fact that it was to commence on September 1st, he said.

Through the program, homeowners of dwellings built in Ontario prior to 1921 could save up to \$350.00 on the cost of insulation materials. In order to qualify, insulating material must be acceptable to the C.M.H.C. and the house must be a principal year round residence. The Federal Government will subsidize 2/3 of the cost of insulating materials to a maximum of \$350.00 but no assistance is available for labor costs.

The Canadian Home Insulation Program will be centred in Montreal and individuals may write to P.O. Box 700, St. Laurent, Quebec, H4L 5A8. Telephone inquiries will also be accepted and interested persons may call collect to area 514-341-1151. The switchboard will be open from 8:30 to 4:30 on weekdays and will attempt to answer all questions.

Newspaper advertising has also been instigated and coupons may be clipped from government ads and sent in to the Quebec address. Should individuals have any further inquiries regarding this program, they may feel free to contact the office of Bill Scott either at the House of Commons, Ottawa or at 42 Victoria Avenue North, Lindsay.

Gregory Watson, of Bowmanville, Ont., feeds these wild mute swans which were at Benois Lake for the first two weeks of July. Waulze Gerow, of Harcourt, said that the swans stayed around his cottage for some time. Mr. Gerow said that the swans have gone into Algonquin Park now. He said that as far as he understands it is the first time this type of swan has appeared in the park.

Report from Ottawa

From page 3

are not counted in the Stat-Can figures. Only those people who register are included in the jobless rate calculation.

When people run out of unemployment insurance benefits, they are dropped from the UIC active rolls, and they then become members of that growing army of 'hidden' unemployed. They are jobless, but they do not show up in the statistics. This is a national disgrace.

Statistics Canada reports that 45 per cent of unemployed men over the age of 24, classed by StatCan as 'family breadwinners,' have been looking for work for more than three months. It also notes that the unemployment rate among women is two per cent higher than among men.

This is doubly tragic in that many working mothers are the sole support of their families.

Joe Clark is urging the federal government to end the Anti-Inflation program, and to implement the Progressive Conservative Policy on Unemployment. The Anti-Inflation program has run its course, and it was a poorly designed and badly-administered program to begin with.

We would eliminate the federal sales tax on critical items, such as building and insulating materials, and provide income tax cuts to lower and middle income families, with greatest benefits to those earning up to \$8,000 per year and on a sliding scale up to earnings of

\$15,000 per year.

We would immediately restrain the growth of the federal public service and streamline services to provide greater efficiency at reduced cost to the taxpayers. The Canadian government's demands on the productive element of our economy are ten to fifteen per cent higher than for the U.S. government.

In the three months ending in June, Canada had a deficit in foreign payments of 1.5 billion dollars, and a tourism deficit of 489 million dollars. With such a multitude of unsolved economic problems, with new ones surfacing every day, I'm convinced that we need something more than a change in government attitudes and programs.

Farmers testing feeds to do a better job

A number of farmers in Victoria and Haliburton Counties are having their home grown roughage feeds tested this year so they can do a better job of properly feeding their dairy and beef cattle.

Protein is the one nutrient in the roughage which can vary tremendously from one farm to the next. Some farmers who have already tested their hay have found the protein level to be as high as 18 to 20 per cent. The hay from other farms has tested as low as 7 per cent protein. Thus the protein supplement needed to properly feed livestock will be very different. This makes a big difference in feeding costs.

There can be considerable difference in the protein in corn silage, so getting your silage tested can be of real value. The time to take a sample of your corn silage is when you are filling the silo.

Take a handful of silage from every second or third wagon load, putting this silage in a pail. At the end of the day, mix it thoroughly, keeping about 5 pounds, and store this sample in a plastic bag in your deep freeze. Repeat this process each day you are filling the silo, with a separate sample for each day. When the silo is full, mix all the samples together and send a portion of the composite mixture to the testing lab.

The necessary material to send feed samples for testing is available from the Agricultural Office in Lindsay - call or write and we'll send it to you.

This feed testing service is co-ordinated by the Ministry of Agriculture and Food, with the testing being done at the University of Guelph.

THE CEREAL SHELF

Oats, wheat, barley, corn and rice! These cereals and their products will soon be under intense study in Victoria County. The 4-H Homemaking Club members are just beginning their fall unit called "The Cereal

Shelf." In it, members will study the variety and versatility of cereal products and their use in our meal plans. Part of the program is also the testing of a variety of cereal product recipes - Cherry Bran Squares and Lasagna, to mention a few. There are presently 24 Homemaking Clubs reorganizing throughout Victoria County. Each club readily welcomes new members too.

If you would like further information regarding the program or the joining of a club, please contact the Lind-

say Agricultural Office at 324-6125.

AUTUMN IN PROVINCIAL PARKS

Many of us would not like to admit it, but recent cool temperatures and a few brightly colored leaves indicate that autumn is just around the corner.

September and early October is an excellent time to visit or camp in our provincial parks. Crowds and troublesome insects will have all but disappeared. The weather is crisp and fall scenery is at its best.

Norland Notebook

By Barbara Maunder
454-3233

This column marks the completion of one year of writing Norland Notebook for this paper. The year has passed quickly and I just hope that my readers have enjoyed perusing my news and comments as much as I have writing them. May we spend many more years together!!

From the September "New Horizons On the Move" news letter, we learn that for the third time the "Happy Wanderers" choir group will sing at the Lindsay Fair on Friday, September 23. On September 25 the group will also perform at Sutton Presbyterian Church to help the church commemorate its 50th Anniversary.

All of the receipts had not been tabulated from the sale of goods in Ye Ole Jail this summer but as of August 15, over \$1,500. had been realized. The group had sold 20 copies of Gladys Suggitt's book "Roses and Thorns" and proceeds from the sale of her book go to the Cystic Fibrosis Association. Recently Miss Suggitt was awarded a scroll for having donated \$4,000. to the Association. Well done, Gladys.

Lindsay Central Exhibition will open its gates on Wed., Sept. 21 and many activities are being planned at the fairgrounds through until Sun., Sept. 25. This fair is always a popular place for local people to visit and I'm sure that this year will be no exception. Since Thurs., Sept. 22 is an elementary school professional activity day, students at Norland Public School will have a holiday and be able to attend and see and hear the sights and sounds of this spectacular fair.

On Sunday morning, Sept. 11, a group of about 18 men and women met in Norland and later travelled to Moore's Falls area to partake in scuba underwater tests as part of a course that is being taught in Peterborough. There are 40 hours of classes in connection with the scuba training - the students are first tested in a swimming pool and then in river or lake water. If they successfully complete and pass the various tests, they are eligible for a diving instructor certificate. One of the instructors of the Sunday group who is a member of the Ontario Divers Association, was employed last summer by Parks Canada when divers were needed to do underwater repairs on the dam in Norland.

Norland United Church Women extend a cordial welcome to all who would like to attend a meeting being held Tuesday, Sept. 27, in Norland United Church Hall, at 8:00 p.m. The guest speaker will be Mrs. Emily Randall of Lindsay, President of the White Cane Club. Mrs. Randall was chosen Lindsay's "Citizen of the Year" in 1976 and is a very active and inspiring lady who is involved in many speaking engagements.

ments, visiting senior citizens at Victoria Manor and working with the Salvation Army. An enjoyable evening is anticipated by all.

Aubrey Gostlin, son of Mr. & Mrs. Raymond Gostlin, formerly fish and wildlife co-ordinator of Natural Resources, of Minden District Office, has been named Regional Enforcement Specialist and will be employed in Huntsville. Our congratulations.

A large group attended the benefit dance for Roy and Sharon Greer last Saturday night and about \$240.00 was presented to this family who had the misfortune to lose their home and most of their belongings in a fire recently. The Greers are presently residing in the former Adair home just south of Norland. The Ladies Auxiliary would like to thank all who helped make the evening such a success with special thanks to the country rollers who supplied the music and charged less than their usual fee and thus increased the givings to the Greers.

Council News - Sept. 6/77 - All members present:

1. Second \$3,000. from Victoria County under Rural Employment Incentives Program be requested.

2. Art Kennedy be written and informed that turning circle serving Lots 9, 10, 11, 12, Plan 525, be completed as soon as possible.

3. Bradley Bradamore, the Building Inspector, be paid 8 hours at \$3.50 an hour and 150 miles at .10 a mile, for his trip to Ontario Home Renewal Conference in Huntsville.

4. Township employees while on township business be paid .15 per mile.

5. Subject to approval of road superintendent, a suitable culvert, not to exceed 24 inches in depth, be installed across Cockburn St. from the front of property of Wm. Brunning to the frontage of Joseph Chynoweth.

6. Recommend to Ministry of Natural Resources that the portion of Laxton Township, south of Highway 503, be opened to bow hunters only.

7. Houses built or moved into municipality in the previous five years to Sept. 6, 1977 will not qualify for O.H.R.P. grants.

8. Township private snow plowing rate set at a minimum of \$4.00 per trip or \$25.00 an hour.

9. Township to purchase from Security Products Ltd., Mississauga, a 2-hour certified Class B safe, Model 1950 ledger cabinet at \$720.00. This price to include a combination Sargent and Greenleaf lock.

10. Safe be purchased from the capital accounts fund.

News of the district in The County Echo

Maple Lake News

by Ada Gibbs

Stanhope Library has done it again - topped Haliburton County in numbers of books exchanged during July and August, the total for the two months was 5,133, beside 97 new members.

Last Sunday, St. Peter's Church had an unexpected treat at their 9:15 a.m. service. It was the regular Holy Communion Service and Rev. George Daley, Curate from All Saints Church, Peterborough, was in charge of it, assisted by Mr. Jack Finlay, Lay Reader from the same church.

During the service Rev. Daley gave a most interesting talk on his work as a school teacher in the Moosonee and Yukon Districts, as well as his work as a missionary. As he spoke to the congregation he invited the people to ask questions if they so desired, and Rev. Daley was able to enlighten many of us on the work of the churches in those areas, and pictured for us the distribution of the bales of woollen quilts, clothing, infants wear, mittens and socks etc. It was a very rewarding service but too bad the congregation wasn't larger. We are already feeling the loss of our summer visitors.

We understand that we will have another opportunity to meet with, and hear and see slides shown by Rev. and Mrs. Daley, at St. Paul's Anglican Church, Lindsay, at the regular annual get-together of all parish churches, on the evening of Wed., Sept. 28. Don't miss such a golden opportunity. I understand Rev. Daley is with Trent University Staff this year.

Mr. & Mrs. John Barclay are in Toronto at present for the wedding of their daughter Susan, which takes place Sept. 17th. The following week Mrs. Barclay will be attending the meeting of the 125th Anniversary of the Anglican Church Synod, as the representative for St. Peter's Parish.

Mr. Wilbert Gibbs and two friends, Mr. Wm. Mackey, of Haliburton and Mr. Jerry Bradamore, of Cobocok, have returned home after a week's fishing trip to Herdsman's Lake in Quebec. They report the fish weren't very plentiful when they were there, or else the men hadn't the right kind of bait. Of course, it's the same old story

about the big ones that got away. However, they claim to have seen several moose within close range and the animals seemed quite tame. The men had a holiday anyway and reported on the pleasing sight of the magic carpet of colored leaves as their pilot flew low to let them see the overall picture of the lake country on the return journey.

The Fred Prentice's have now gone to live in their apartment in Bridgenorth, near Peterborough and the new owners, Mr. & Mrs. Mueller (Winnie Fry) have taken possession of the Prentice property at the head of the lake.

The A.C.W. of St. Peter's Church opened their first meeting of the fall on Wed., Sept. 14th, with a delicious potluck lunch, followed by their regular meeting. Two matters of business were on the agenda; that of the ordering of supplies in preparation for the packing of the September bale for the Canadian West and secondly, discussion and planning for our annual Thanksgiving dinner which will be held Sat., Oct. 8. Watch for details a little later.

These enterprising ladies had set up two heavy quilts (to be tied for the bales) in the basement earlier in the week, and as each member turned in and did a share of the tying, both quilts were completed by the end of the week.

We are sorry to report Mrs. Moss Davis on the sick list. We understand Betty had a bad fall. Best wishes for a speedy recovery, Betty.

The sympathy of the community goes out to the Leslie McGuire family and the Roberts family for the loss of a loving daughter and wife, Olga. Also, to the McPhails and Redners for the passing to eternal rest of Sophia Ball (McPhail).

Mrs. Maurice Hughes has returned to her home in Peterborough, after visiting for a week with her aunt, Mrs. Winnifred Johnson.

Mr. Stan Ashman is doing a fine job of repointing St. Peter's stonework. Unfortunately, there will soon be frost and he won't be able to do any more until next spring. But there is a great deal more to be done to get this beautiful church, which is our pride and joy, into good condition once more.

Agricultural events in the district

Thurs., Sept. 22, 10 a.m. - Achievement Day for Kawartha, Little Britain, Woodville 4-H Agricultural Calf Clubs will be held at Lindsay Central Exhibition.

Thurs., Sept. 22, 1:30 p.m. - Championship 4-H Calf Show at Lindsay Central Exhibition with banquet following.

Sept. 22-25 - Lindsay Central Exhibition.

Tues., Sept. 27, 8 p.m. - 4-H Agricultural Small Engine

Club meets in Agricultural Office in Lindsay. Parents are welcome.

Sept. 27-28, 10 a.m.-4 p.m. - Senior Training School presents "Personalize Your Pattern" - open to all ladies groups of Victoria County. Please note: Only two representatives from each group may attend.

Sept. 27-Oct. 1 - International Plowing Match, Kingston. Wed., Sept. 28 - Oakwood Fair.

FEE - \$3.00 per CHILD

Maximum - \$6.00 per Family

NOTE: Scouts will register at first Scout Meeting Sept. 28th at 7 p.m.

Much activity at Kinmount ball park

Writer unknown

There is quite a bit of activity going on in the ball park next to the Kinmount Catholic Church, especially Sunday afternoon at 3 o'clock. It turns out that the local fire departments have taken each other on in baseball.

They have had some terrific games, and the scores are sensational, but everytime I mention them, some folk question whether we are playing baseball or basketball. I know very little about either, so I'll call a few to you and you can be the judge. 31-15, 24-9, 20-17. Perhaps I can clarify a few things by giving you an insight report of the game and a few of the players.

When this idea blossomed, all the barns, garages, and attics got a thorough looking over for discarded gloves, balls and bats, used in past eras. When they had a reasonable collection, they assembled at the ball park. Burlap bags mark the bases and cement blocks mark the foul lines. They needed an ump and grabbed Percy Sherman. Talk about "Kill the Umpire." They wounded him the first game, with a foul ball, and his sling still attests to the broken wrist. But he is with us at each game, shouting words of encouragement from his porch, a safer

distance. If you stop in to see Percy, you will note that he is a very adventurous gardener. He is a first, I believe, to grow mashed potatoes. His garden is about five feet from the foul line. Another adventurous gardener is Father Hart. He is surpassing Percy with creamed corn. These players will stop at nothing to catch a foul or homer, including gardens.

There is a star-potential in every player and he plays with this in mind, I'm sure. Ken Young, Doug Pearson, Brad Hartin, Al Stender, Dave Hartin and Peter Pearson have mountain goat ability. They run backwards in the outfield, climb the embankment, catch the ball and sometimes somersault for a finale.

Dave Crego and Dwight Dettman have Fred Astaire qualities and tried "Bump your Booty" on third base. Dwight must have won that one as Dave had to go home. They said he was out.

Jim Nightingale and Wally Stender have first base tied up for Galway. Guy Scott is giving pitcher, Merv Pearson an Excedrin headache. Guy can hit and Merv can pitch, but Merv would like to strike him out, just once.

Now keep your eyes on the wind-ups, the Hartin boys, Roger, Brad, Terry and Dave

are going to wrench something if they are not careful. Dave Hartin could try out for the Winnipeg Ballet, the arabesque he did winding up for a hit was sensational.

We were worried about Terry, as he was getting tagged out at most bases. But Kathleen Hartin, an avid Somerville rooster, remedied that and bought him some orange sneakers. They didn't do too much the first game, but the orange glow has diminished and the dirt took its place. They have helped his game considerably and a few runs are now bearing Terry's name. Somerville pitchers' Fountain and Barkwell give you a lot to watch. Barkwell has a twist after throwing the ball of smacking his right hip, it could be a signal to the catcher. The Galway team is trying to interpret it. The town council of Galway and Cavendish is well represented with Reeve Brickman and Harry Stuart playing. So, when I saw Bill Scott at one of the games, I thought Somerville had some real political pull. But Bill assured us he was just there to enjoy the day, and he also said he might be able to get the field straightened up and the backscreen at home dressed up. So the holes may be closed up in the backscreen, thus making umpire-wounding a little harder. That Reeve Brickman doesn't scare Somerville at all. When he shows up in his light or white pants, Somerville makes sure he slides into a few bases.

Shirley Preston keeps the boys in their proper line-up and uses a series of hen scratches on paper to keep track of the score. No one would dare dispute her code. In all, these guys put on a terrific show and have one grand time doing it. These are our firemen, and they are a mighty fine bunch of guys. We are lucky to have them. Oh yes, on occasion they may pass the hat. This is probably to go for equipment. One game was halted as they broke the three borrowed bats they were using. So come early, (parking is at a premium) and enjoy a fine day with your firefighters.

Mrs. Ada Irwin returned home to Lindsay after a visit with her sisters, Mrs. A. Marles and Mrs. R. Faulkner for several days.

Mrs. Frances Nesbitt visited Mr. & Mrs. Joe Warburton, at Minden, on Tuesday. Mr. & Mrs. Grant Lake were weekend visitors of Mr. & Mrs. Robert Lake and family at Stroud.

While at Kawartha Garage this morning I noticed another wrecked car, freshly towed in. Jim said he had towed it in from the Balsam Lake Park area and says he has averaged about one weekend from that area all summer. If the park is ever closed up you may not need that second tow truck, Jim! Seriously, it makes one wonder why a certain area is more accident prone or why another area never has accidents. I'm sure you have heard it said that most accidents occur within 25 miles of home. How true! We travelled close to five thousand miles last month and never a scratch. Right at home it happens! Isn't it a miracle more folks aren't killed when you view some of the wrecked cars?

Congratulations to the parents of new babies! For you first time parents I'm sure the joy exceeds any feelings you would have if you won a million.

I bought a book on Indian medicines while in Edmonton recently. It is all on natural foods, weeds, etc. that the Indians use for different ailments. Next week I'll tell you about some of them.

I had a nice visit with Shirley and Garth Horsley on Friday.

I'm sorry to hear that Mrs. Lillian Brown is a patient in Ross Memorial Hospital in Lindsay. Get well soon, Mrs. B!

Winners in the L.O.B.A. draw were as follows: quilt won by Beryl Morrison of R.R. 1, Norland. Cushion was won by Ruth Ann Matthews of Fenelon Falls. Plant holder was won by Peggy Hutchinson of Riverview Rd., Lindsay.

Had a nice visit with Shirley and Garth Horsley on Friday.

I'm sorry to hear that Mrs. Lillian Brown is a patient in Ross Memorial Hospital in Lindsay. Get well soon, Mrs. B!

Chatting with Irene

286-1674

At least as I sit here doing the column for this week the sun is shining. Wasn't last week miserable? That is just the way I felt also, for that flu really gets you down, and it takes so long to throw it off. Sure hope the nice weather stays long enough to kill the germ.

Congratulations to Mr. & Mrs. Bernard Trumbull on their 25th Wedding Anniversary. There was a surprise party for them at the arena last Sat. evening and a large crowd enjoyed the party.

Fall must really be here for bowling has started and the L.O.B.A. card parties start at the Orange Hall on Sept. 26 at 8 p.m. Then, on Sat., Sept. 29, the Mini Card Parties start at the Parish Hall, at 1:30 sharp.

The Library-Museum Committee held their meeting last week and decided to concentrate on the building of a larger library as their first project, then after it is finished start on the Museum. This way neither project will have to be scrapped but the need for a bigger library is a must. After the bad fire in 1942 there was no library or books left, but it was started again by the people donating enough books to open in the office of the County Clerk, then it grew so big that he asked the library to move, as he was being crowded out, so the land where the present library stands was donated by Mrs. Annie Cox, the building was donated by the late Mr. Sam Welch and the Hydro man gave up one of their Saturdays to move the building over to the new site. It wasn't long until that was too small, so a part was put on the back for the children's books. By 1958 the whole building was too small, so when the new bank was built the contractor told the Committee that they could have the old bank real cheap if they would move it, as he was going to tear it down. They got busy and gave the old building to the Boy Scouts as a club house if they moved it, and they did, leaving the spot free for Mr. Hugh Alton to move the bank building over. The committee were very happy and breathed a sigh of relief, at last there was lots of room, but the tale is now the same, first the windows on one side were closed off for more shelves, then the windows on the other side had to be closed for shelves, now it is a case of no more room again. It is so crowded you can hardly move around, so it starts all over again. How do I know all this. Well, I was on it all, that is how I know that a new library is a must, but by now I'm a little tired, so am throwing the ball to you. Please help us as others did in the past won't you.

Mr. J.R. Hutchinson won the jackpot at Bingo last week after 54 numbers called. Hope he has fun with his win.

Paul Fleming is finished with Cornwallis and being stationed at Base Borden. Can get home more often now. Wonder how he likes it in Nova Scotia?

When you look good you feel great. Half sizes have arrived. 14 1/2 to 24 1/2. Some long gowns and afternoon dresses. L-XL-XXL GIRDLES. BRAS UP TO 42. CAR COATS 12 to 40 (Plaids and Colours).

Fitness is fun. Try some.

PARTICIPATION

Had a phone call from a lady last week before I had even picked up my paper to say that she had gotten a kitten from A.I.D. and they loved it. She also said she liked my recipes from N.S. cookbook as she is, or was from down east, so guess I'll give you another this week.

The directors of the Agricultural Society have been attending the various fairs to see if they can get new ideas for 1978 county fair. Mr. & Mrs. B. Hewitt attended Emsdale fair recently. Also visited with Mr. & Mrs. Paul Yearwood.

Mrs. Flo Dollo spent a few days with Mr. & Mrs. Roger Hogg, in Bracebridge recently.

Grant Porter left last Friday to start his training at Base Cornwallis.

The Library-Museum Committee are having a Family Fun Night at the curling rink on October 14th, from 7 p.m. to 9 p.m. There is fun for all so keep the date in mind. There will be all kinds of games, also a white elephant table and if you have anything to donate to this table you can leave it with me or at the library. This includes plants as well as other items. There will also be a bake table, games of ring toss, sponge throw, fish pond, bingo, etc., as well as refreshments, so be sure and come out and have some fun as a family. The Barbie Doll and all her outfits will be drawn for this.

I hear that the Horticultural Society have now enough names to apply for their charter or whatever they need to get started. Let us hope that more people will now support this project to make our town more attractive.

Did you ever make Mock Duck? This recipe sounds good and is from my N.S. cookbook. 2 pound piece round steak; 4 cups soft break crumbs or 3 cups dried crumbs; 1 onion finely chopped; salt and pepper; pinch mustard; 1 tsp. savory; 1/2 cup melted butter. Pound steak all over. Make a dressing combining all ingredients and spread over the meat and roll up like a jelly roll. Skewer together well to seal ends. Brown well all over in hot drippings and then place in a covered baking dish. Make a gravy and pour over the meat (a tin of tomato soup could be used instead of gravy). Cover and simmer in 325 degree oven until tender - about 1 1/2 hours.

Visiting with Mr. & Mrs. Taylor Kernohan over the weekend were Mr. & Mrs. Earl Hall of Toronto and Mr. & Mrs. Michael Bileau, and Julie Kernohan of Whitby.

The Women's Institute bus trip, on October 5, will be to the Science Centre in Toronto. To get tickets contact Mrs. Annie Kernohan at 286-1648. The bus will be leaving at 8 a.m. You will also get a chance to shop.

Mrs. Edith Welch visited last week with the Ron Welch's at Frankford.

Adios and take care now.

BY JIM BADGLEY

Last week I got to see my fourth and fifth Toronto Blue Jay games but this time it was much more of an experience.

The wife and I took in the double header last Wednesday night between the Jays and the Baltimore Orioles and to say the least the ball games were good but the fans were just as entertaining.

For those of you who saw the second game of the day on television, you will remember the lady with the bell and the cans of beer. We had seats just behind her. Not only that but we also got a good look at the amount of alcoholic beverages consumed at a double header despite the fact that beer isn't sold at the park.

Sitting about three rows behind us were a couple of fellows with a case of 24 beers. One wonders just how they got it into the park. The fellow in front of us got drunker and came up with better lines as the game went on.

One of his best happened just after Toronto had made an error. A young fellow selling hotdogs came by yelling "get your hotdogs" when this fellow came up with the line "We can't take anymore hotdogs, there are already nine of them on the field."

The chant from opening day still lingers in Exhibition Stadium. "We want beer" but as one fellow said as he sipped away on his glass of rye, "That's just about all I need."

I still can't understand why beer isn't sold in the stadium.

Baseball and beer don't necessarily go together but if Toronto is going to continue to lose games like they did on Wednesday, a couple of cold ones will make baseball a little more bearable.

Bill Obie presents Scott LaRue with the Rotary Club's trophy for the low net in the annual Rotary Golf Tournament played at The PineStone Inn on Monday.

Al Conebeare gives the low gross trophy to John Wilson, the winner of the annual Rotary Golf Tournament held at the PineStone Inn on Monday. Members of the Haliburton Rotary Club were joined by Minden club members for the event.

COUNTY ECHO SPORTS

Minor hockey association getting ready for the season

Haliburton - The Haliburton Minor Hockey Association has things just about set to go for the coming season. At a meeting last week dates for registration were set and the association selected

its committees. The tournament committee for the association is chaired by Roy Scott and Jim Badgley is assisting. The ladies group is headed by Norma Jean Scheffee, with Joan Stinson assisting. The

registration and promotion committee is chaired by Roy Scott and Jim Badgley is assisting.

The ladies group is headed by Norma Jean Scheffee, with Joan Stinson assisting. The

ladies will be in charge of the wicket, tag days, dances and numerous other events.

The rules committee will be Grant Rae, Roy Scott and Jim Badgley. This committee is designed to handle problems

involving rules interpretation and local rules as well as other items.

Lois Whittaker is secretary-treasurer of the association.

Contact person will be Len Salvatori, the president of the association.

Registration dates set for Haliburton hockey

Haliburton - The registration for Haliburton Minor Hockey will take place October 15 from 10 a.m. to 12 a.m. and 2 p.m. to 4 p.m.

For those unable to make the registration date there will be registrations accepted Oct. 22 from 10 a.m. to 12 a.m. and 2 p.m. to 4 p.m.

Registrations will be held at the Dysart Arena.

The Hodgson Memorial

Bantam Tournament will be held on December 3 this year. The Lake Kashagawigamog Atom Tournament will

be held Jan. 20, 21 and 22, while the Pee Wee Tournament will be held February 10, 11 and 12.

The only major change in the ice schedule at the Dysart Arena is the times of the figure skating club.

Hockey officials travelling

Haliburton - Members of the Haliburton Minor Hockey Association will be travelling to Ontario Minor Hockey Association meetings over the next couple of weeks.

Association president, Len Salvatori, vice-presidents, Roy Scott and Paul Espie, and director, Grant Rae, will be going to a meeting in Sunderland this Saturday.

The Ontario Minor Hockey Association's annual meeting will be attended by Len

Salvatori, Bill Davis, Roy Scott and Jim Badgley. That

meeting will be held in Toronto on October 1.

Events planned for the season

Haliburton - A number of events are planned by the Haliburton Minor Hockey Association during the year. This fall a Level One Referees Clinic will be held.

There will also be a fund raising draw. These two events will be held under the direction of Roy Scott, the Vice-President of the Association.

Report from Queen's Park

BY MPP JOHN EAKINS

Students are back in school: most of them have even straightened out their time-table problems. This would seem to be an appropriate time to reassess Ontario's educational system, particularly in the light of two new developments: the introduction of mandatory core curriculum studies, with new teaching guidelines; and the establishment of a government commission to study the effect of declining enrollment.

In the late 1960's, the philosophy of freedom of choice with respect to courses was introduced into the school system, under the aegis of the then Minister of Education, Bill Davis. The Government Interface Study of November 1976 confirmed criticisms of the general public that high school students were graduating from school ill-prepared for higher education or participation in the work force.

Last October 6th, we released a comprehensive policy paper, suggesting "New Directions for Education," much of which has been adopted by the Provincial Minister of Education. Mandatory courses have been established for Grades 9 and 10, and over two years students must take 2 English courses, 2 Maths, 2 Canadian History and/or Geography, and 1 Science. Current senior students (Grade 11, 12 and 13) are required to take 2 English courses. While introduction of core curriculum at the intermediate level appears difficult, in fact most students have chosen these same courses in the past. The new "refinements" are intended to guarantee that all students receive a sound basic education.

However, there are several problems which hopefully will be resolved in the near future. Core curriculum applies only to students entering Grade 9, and there is no assurance that students in higher grades (or entering Grade 10) from another school will receive instruction in these essential subjects. Also, teacher guidelines which correspond to core curriculum have come under heavy criticism for being inappropriate, poorly focussed, lacking fundamentals and vaguely outlined. This is especially true with respect to History, called "Canadian Studies", and Maths. Senator Eugene Forsey has described the Intermediate History

first-year Marine Technology student cadets at the Owen Sound Campus of Georgian College. The following week the cadets boarded Great Lakes Vessels for the first of three work periods they will spend on board ship as part of their training.

Guidelines as "a mass of fluff." The Maths guidelines are not mandatory until the fall of 1979.

Canadian Geography is still not a required subject. Last October, the Minister of Education made the point that 'curriculum guidelines will be revised to ensure that every student knows enough about our History and our Geography...' Yet a later directive from his Ministry makes it clear that students could take either one History and one Geography, or two History courses, thereby avoiding Geography.

Although these new initiatives do give students and teachers some direction, they will not produce instant results. Parents would be well advised to keep a watchful eye on their children's progress, and the extent to which the new developments have affected programs of study.

The Provincial Commission to study Declining Enrollment was proposed by the Minister of Education during the June Provincial Election as a way of resolving complex problems resulting from a surplus of available teachers and reduced school financing. Two months after the Election, the Minister announced establishment of a Commission, headed by Robert Jackson, to study the ramifications of declining enrollment, and submit a report on its findings within one year.

Mr. Jackson, a former Director of the Ontario Institute for Studies in Education (OISE), has considerable experience in studying the effects of declining enrollment. However, he is somewhat handicapped by being forced to work with no fewer than four enrollment predictions for Ontario, all of which differ. All four project a continuing decline for the immediate future, but some envisage an increase in the mid-1980's, while in other instances a levelling-off or continuing decline is predicted for this period. Mr. Jackson has, however, described the future enrollment situation as looking "pretty grim."

Public input would prove a valuable asset to the Commission in its investigations. Local groups and parents need to consider how communities can best cope with education costs in relation to the changing character of educational institutions, i.e. school facilities will continue to be costly, but with proper planning can absorb local gymnasium-auditorium needs, day care requirements, continuing education and hobby instruction.

Special education needs must be met - possibly by retraining surplus teachers. It is also essential that the community ensure that the quality of education does not deteriorate as a result of government financial restraints. Hopefully, the Commission's report will prove to be of great assistance in planning for future educational requirements.

From the Chamber

BY BOB STINSON

Concerned citizens got together at the Haliburton Legion on Sunday, at the invitation of Dysart council, to meet with officials of the Trent-Severn authority. Water levels this year have reached such unprecedented lows that very serious hardships are being experienced by a large number of people. This meeting gave many of them an opportunity to voice their objections and explain their predicaments. The meeting also resulted in the formation of a committee that will continue to follow up on suggestions that were, and will be made to the authority. The Chamber is pleased to be represented on this committee. All municipal councils and major lakes from within the effected area are represented.

The authority provided a number of pages of information to help explain why we are experiencing this present difficulty. The figures point out the fact that only 1968 and 1931 were worse than this year for low water at this time of year. The reasons given were that the reservoir lakes were not filled to capacity from spring run-off to begin with, and the unusually dry May and July.

There are, of course, a great many complex and technological factors involved in the operation of the system and the public cannot be expected to comprehend it all. There are, however, some things that appear to be obvious enough that it doesn't require an engineer to equate them. The rainfall in August was 159 per cent of normal, or more than 1 1/2 times what we get in any given year. In spite of this the levels continued to drop, where it might be expected that you could either regain, or at least hold the levels during that time.

We are also informed that the stop-logs in the control dams are adjusted every Tuesday. It would appear obvious that a heavy rainfall on Wednesday is going to be all drained out of the reservoir lakes by the time the logs are adjusted next Tuesday.

Residents on Lake Kashagawigamog are now being advised that they intend to drop the level of this lake another two feet in the late winter. There is no indication that any research was done into the effect on wells, water lines and ice conditions for snowmobiling and skiing, and if these are not important enough, how about the effect on fish and wildlife.

The presentation, by the authority, had a document that explained the facts and advantages of the Trent-Severn Waterway. Among other things they estimate that the waterway generates 50 million dollars annually in spending in the surrounding area, but if it is done at the expense of our area, then it may be time a new agreement was drawn up!

The province turned over the control of these reservoir lakes to the Federal government when the waterway was established in 1906. Now, while the Federal government plays with our water levels, our provincial government attempts to force us to rent "water lots" for our docks and rafts, even though they have no control over the level of the water in those "lots." Cottages and residents take note that the honourable Frank Miller has stated you are next! Commercial operators are now being forced to rent "water lots" and once that is done, all of the private sector will be forced to follow suit. The Chamber has been objecting to this practise and maybe it's about time the cottager's associations get involved too.

Don't forget your tickets for the Annual Dinner Meeting, October 12th. If you wait until the last minute you could be disappointed and we don't want that to happen to anyone.

Legion News

From page 3

The Deputy District Commander, Comrade Jim Colton put the Haliburton Band at the head of District "F" when they lined up for the march past. What a thrill it was for those of us sitting in the stands to hear the announcer say, "Here comes District "F" led by the Haliburton Pipe and Drum Band." And there was our color party and several legionnaires also attended the Kilmount Fair and participated in their parade. We would like to see more members out to these events. It seems like we see the same faces at all the outings.

We are now at the beginning of a new year. There is much work to be done, with more help we could do more than we are already doing. So, comrades, get out to the meetings, get involved, it's your LEGION.

Second Section

THE HALIBURTON COUNTY ECHO AND MINDEN RECORDER

Vol. 96 No. 5

Wednesday, September 21, 1977

The Monmouth Arena is taking a little more shape every day. As of last week the steel girders were up and officials of the fund raising campaign point out that the construction is slightly ahead of schedule.

A number of fund raising events are planned by the people of the area to raise money for the new building. One of the projects is the sale of tickets to raffle off a lake front lot in Monmouth Township.

The official opening of the Minden Fire Hall took place last night at the fire hall. A number of dignitaries from the area were present for the special celebration. The fire hall, which has been in use for some

time, includes four bays, two on each side, giving the firefighters better access to the building.

Minden detachment investigates 10 motor vehicle accidents during week of Sept. 12 to 18

Haliburton - The Minden detachment of the Ontario Provincial Police investigated 10 motor vehicle collisions during the week of Sept. 12 to 18.

A single vehicle accident on Highway 519, early Saturday morning, resulted in \$2,400 damage to a truck driven by Cleve H. Shaw, 19, of R.R. 2, Haliburton.

The accident took place at 2:10 p.m., just north of Donald.

Shaw and Ivy Francis, 19, of R.R. 1, Minden, received minor injuries in the crash and were taken to Haliburton Hospital.

A single car accident, on County Road 8, in the Dorset area, Friday at 9:15 p.m., resulted in \$2,500 damage to a car driven by Victor

Westratin, 16, of R.R. 2, Minden.

Police report that the car was southbound when it entered the west ditch on a curve, striking a tree stump.

A two vehicle accident at the junction of Highways 121 and 519, in Haliburton Village, left three people with minor injuries.

The Minden detachment of the OPP report that a motorcycle driven by Lavern Hobden, 16, of Haliburton, was southbound and a car driven by Orman Rowbotham, 49, of Haliburton, was northbound, when the collision occurred.

Hobden, Emmett Madill, 43, and Robert Vickery, 30, both passengers in the Rowbotham vehicle, received minor injuries.

Hobden has been charged

with not having a motorcycle endorsement on a drivers license.

There was \$500 damage to the motorcycle and \$600

damage to the car. Rowbotham has been charged with failing to wear a seatbelt assembly.

No disagreements

Minden - Anson, Hindon and Minden Clerk Treasurer, Richard Parisotto, is leaving the municipality because he has another job.

Mr. Parisotto said that there are no conflicts or disagreements behind his moving. He said that he is just looking for a new experience.

Mr. Parisotto will become the deputy-clerk of the town of Ajax.

He will stay in his position with Anson, Hindon and Minden until October 14th.

Richard Parisotto

Haliburton Highlights

BY CREIGHTON FEIR

Mrs. Nellie Dean is in the Civic Hospital, North Bay, Room 6006, and would appreciate hearing from her friends in Haliburton. Mrs. Dean suffered a stroke one month ago, but is responding well and she is in excellent spirits.

James Hall, who is very well known in Haliburton, and who has been Victoria Counties and the Municipality of Dysart et al Emergency Measures Organization (EMO) co-ordinator for the past 14 years, and deputy secretary of the county's land division for six years, has resigned. James Hall's resignation from both positions has been accepted by the county's personnel committee and is effective October 21. Mr. Hall, a former Ontario Provincial Policeman, before coming to work with the county, said he was taking an early retirement.

Mr. & Mrs. Rex Boice have returned home following a vacation at Yellowknife in the Northwest Territories.

This coming Friday evening, September 23rd, 1977, it will be Settlers Night at Extensicare, Haliburton. A big evening is being planned and the action will all begin at 7:30 p.m. The evenings entertainment will include Scottish dancers, Scottish pipes, English pub, Irish music, authentic food, and it's all included for the low price of \$2.50. Everyone is welcome so come on out and join in the big fun night at Extensicare.

Everyone keeps wondering when the local Recreation Committee are going to transfer the playground equipment which is at present in the fairgrounds, to the Rotary Beach playground. It's hardly ever being used at its present location and now its even dangerous for children to use it as it is near the construction site of the new curling rink. For one thing children should not be playing in this area anyway as the signs strictly state that anyone near the construction site must be wearing a hard hat. Rick Poole, chairman of the Haliburton County Board of Education, told us that if they have no place to put this playground equipment, they can always use it at the Victoria Street School.

They are fencing off a new area at the Haliburton dump and the derelict vehicles they are rounding up all over the countryside will be placed here.

We are harping again on the subject of litterbugs in Haliburton and from what we can see we still have plenty of them. It just makes us sick to think that people will litter the village with debris when it can be placed in litter containers which are placed all over town for everyone's convenience. Don't be a litterbug. Let's keep things in a clean and tidy fashion.

On making our rounds the other day we noticed a sign on the door of Black's Pro Hardware which stated "Please don't sit on the steps." People should know better than to be sitting on the steps of local business establishments as it makes customers walk around them and in other words it becomes a general nuisance. There's plenty of benches on the Main Street for these people to sit on.

Mr. & Mrs. Russell Dart spent their 45th Wedding Anniversary with Mr. & Mrs. W. Ross Smyth and family, at 367 Valanna Cres., Burlington, on September 10th.

We were pleased to meet a former resident of Haliburton the other day when he came into the office to renew his subscription. It was Frank Biagi who now resides at Parksville, British Columbia. Frank left to return to B.C. on Monday.

The Haliburton Figure Skating Club are preparing for another season and are hoping to have a meeting in October. As yet they have not lined up a Pro for the coming season. In an effort to raise money the Figure Skating Club are having a turkey dinner at the Royal Canadian Legion Hall, in Haliburton, on Sunday, September 25th, from 4 p.m. to 7 p.m. Adults \$2.50 and children under 12 - \$1.25. Plan now to attend.

The annual canvass for the blind, in Haliburton County, will be from September 15th to October 15th. Your support will be appreciated. Please given generously when your canvasser calls.

We noticed a write-up in one of the Toronto papers which stated that in Mississauga they are going to have a ten o'clock curfew. If things don't quiet down in Haliburton we may have to have a curfew here.

After watching all of the commercials that are on television these days we have come to the conclusion that in our opinion the best commercials are those put on by Bell Canada. The music is nice in these commercials and they spell out a real good message.

News from Extendicare

BY DR. O.W. ANDERSON

Most of us watched TV last night depicting the problems arising out of the development of the tar sands of Northern Alberta. For some reason the three protagonists in this drama were not displayed, that is; government, capital and labor. Naturally the first two clashed and any possibility of a deal fell through. It was not clear to us why labor was not even considered as being the most pertinent issue of all, despite all the turmoil Canada has experienced through work stoppage and withdrawal of services it is amazing that the cost of labor is rarely mentioned in news items and yet it is quite possible that a big majority of Canadians would vote tomorrow to have the controls on wages removed, even though as we can understand the removal of the controls would very certainly allow wages to skyrocket to infinity, even to the point where a taxpayer would need a wheelbarrow to pay his taxes. Labor has at no time expressed a willingness to control themselves. How then is it possible for government and capital to agree on the development of the tar sands. The higher the labor costs, the more government revenue and extravagance and the more million or billionaires.

Two P.M. Wednesday was our movie, the first of which was a carving of a native sitting in a canoe, done by a young boy living on a small stream, a tributary to Lake Nipigon. It was about 10 inches long and maybe 4 1/2 inches high, well balanced fore and aft and abeam. On the bottom it bore a carved directive to return it to the water if found. Presumably it made its way from the tributary to the shores of Nova Scotia, having been found several times and returned. The second film was of a quite mischievous raccoon in the wild and its various antics. The next and last was of the Hebrides with their rugged terrain and coasts and the numerous landmarks, the birthplace in particular of Flora MacDonald, whom it seems has a good chance of being our next prime minister of Canada.

Charlie Rumbelow came back Thursday after an enjoyable visit home for a few days. We like to get away and we like to get back.

Thursday was also our big monthly birthday party at which time we celebrated with Mrs. May Ruttle, Mrs. Mary Currah, Mrs. Hazel Welch and Mrs. Margaret Preston. A lively sing-song was held, then juice, milk, or tea was served after which a big birthday cake, baked by our lady residents, was portioned among us. These parties are a good time held among ourselves. The next morning Miriam opened the refrigerator to inspect the cake and found it missing. Having the privilege of previewing this item she found it.

We are all proud to learn that Mr. Charles Plewman, one of our residents, was guest of honor at a Kilcoo Camp Reunion celebration held at Camp Kilcoo this Friday, Saturday and Sunday. We residents were invited to visit last summer so we are acquainted with its great beauty and charm.

No doubt it goes without saying so, but we are reminded to remind you of our coming Settlers Night of celebration coming September 23, 1977 at 7:30 p.m. This is the first day of Autumn this year. Our ladies have worked hard to bake for this.

Friday morning our usual devotion period was held with Capt. Doug Burry our spiritual leader. The theme that we all have to stand in judgement and only those accepting Christ will be admitted to everlasting glory. We all like to listen to Capt. Burry very much.

We are looking forward to a bus trip to the highways and byways, to see the Autumn colors. It is expected that a drive to Dorset will just about do it.

A correction must be made here. It is learned that on Friday evening Mr. Plewman had a cold and could not attend at Kilcoo. On Saturday, as a substitute for his attendance, Mr. Haddae of Kilcoo came up to see Mr. Plewman, bringing with him his tape recorder to tape Mr. Plewman's remarks to those assembled at Kilcoo. This was surely a nice gesture to the founder of Kilcoo Boys and Girls Camp, 45 summers ago. A special feature of this camp is that the staff tend to bend the rules if it will increase the enjoyment of a boy or girl. A pleasurable summer is encouraged.

TRADITIONAL BRICK BUNGALOW

Plan Number 76-1372:

This charming English-style three bedroom brick bungalow is suitable for most average-sized rear view lots and is ideal for the young and growing family who entertain a great deal.

The pleasing exterior bears a low profile in brick veneer, brick chimney and asphalt shingle roof - the extension of which provides a sheltered entrance.

Flexibility is the operative word for this home. The U-shaped kitchen is central to both dining room and breakfast nook, making possible the simultaneous dining of guests and smaller children. The dining room may be separated from the kitchen by sliding doors - further enabling the separation of guests and family. The nook could be developed with a snack bar counter to the kitchen for those casual family meals.

All three bedrooms are grouped around the main bathroom and the laundry utility complex which faces it. For those who prefer, these utilities, now hidden behind louvered bi-fold doors, could be moved to the full basement, leaving extra storage or closet space.

The master bedroom has a two piece ensuite bath, generous closets, and connects to the split level rear deck via sliding glass doors.

Plan for design No. 76-1372 may be obtained at a cost of \$60 for the first set and \$9 for each additional set, plus \$4.00 for postage and handling. B.C. residents please include 7 per cent sales tax.

Send for the current edition of Select Home Designs Series #34 featuring imaginative decorating and home improvement ideas plus 350 quality home plans of every type. Available for \$2.25 (\$1.75 plus 50 cents postage and handling). To order these items please send cheque or money order payable to the Home of the Week, c/o The Haliburton County Echo and Minden Recorder, 382 West Broadway, Vancouver, B.C. V5Y 1R2.

Season for small game

On Saturday, September
24, 1977, another hunting
season for small game and
waterfowl will begin in the

**CONTROLLED
WATERFOWL HUNT**
Darlington Provincial Park,
six hunting blinds will be
available during the Septem-
ber 24 to December 15
waterfowl season. The blind
permits are available on a
first come, first served basis,
starting at 5:00 a.m. at the
park. Hunting will be per-
mitted on Monday, Wednes-
day, Friday and Saturday.
There is a daily fee of \$8.00
per blind and a maximum of
two hunters allowed in each
blind. A boat is required to
reach five of the six blinds.

Lindsay District. Hunters in
search of cottontail rabbits,
snowshoe and European hare
squirrels, ruffed grouse,
woodcock, pheasants, ducks
and geese, will take to the
field on September 24.

Sportsmen are reminded
that the conduct of each and
every hunter is a reflection on
the image of the entire
hunting fraternity. Hunters
are urged therefore to prac-
tice good hunting ethics in the
pursuit of their sport.

Respect for the rights and
property of others is a cardinal
rule to be followed. The
hunter should always ask
permission to hunt on private
lands. Firearms should not
be discharged close to build-
ings or livestock. Gates
should be left as they are
found. All spent shell cases
and litter should be picked up
and properly disposed of. Be
sure of your target - target

practice should not include
such items as signs, bottles
and fenceposts. The hunter
who is successful should
share his game with the
landowner, for private lands
provide much of the wildlife
on which future hunting suc-
cess depends.

Be sure to get a copy of the
1977 Hunting Summary of the
Regulations and read it very
carefully. Most regulations
regarding bag limits and
possession limits remain un-
changed from last year. One
notable exception is that
red-breasted and American

mergansers are included in
the daily and possession
limits for ducks. Last year, no
bag or possession limits were
applied to these two species.

Gems of Truth

From page 13
Christ is the Son of God, be
baptized into Christ (see Acts
2:38-39; Galatians 3:26-29;
and Romans 6:3-4). THE
PROMISE is for you, why
don't you respond to it?
